EDUCATION

German International University (GIU)

Bachelor of Science in Computer Science, Major in IT Security

10/2024 – Expected 2028

Cumulative GPA: 2.33, German scale – 0.7 is the highest

Relevant Coursework: Data Structures & Algorithms, Databases, Operating Systems, Computer Networks, Software Engineering, Information Security, Distributed Systems

WORK EXPERIENCE

- **AI Engineering Intern — Suez Canal Bank:** Gained hands-on experience in MLOps, Retrieval-Augmented Generation (RAG), large language models (LLMs), agentic AI, vector databases, and explainable AI, applying these concepts to a credit risk decision-support platform using XGBoost, SHAP, Groq, and ChromaDB. (07/2026 – 08/2026)
- **Real Estate Intern — B2B Consultancy:** Conducted market analysis, supported feasibility studies, and assisted in client communication and presentations (08/2025- 09/2025)
- **Teaching Assistant — ICT (IGCSE):** Supported curriculum development, marking, and student tutoring sessions for O-Level ICT (05/2024)

PROJECTS

- **Credit Default Risk Platform:** Developed an end-to-end ML pipeline for preprocessing, feature engineering, model comparison, hyperparameter tuning, and evaluation, selecting XGBoost as the champion model with a 0.7633 holdout ROC-AUC. Integrated SHAP explainability and a Groq-powered RAG copilot using ChromaDB, and containerized the FastAPI, Next.js, PostgreSQL, Redis, and Celery services using Docker Compose. [GitHub Repo](#)
- **ThreatLens AI — AI-Powered SOC Platform:** Engineered a production-style full-stack security operations platform using React, Node.js, MongoDB, Python FastAPI and Docker, featuring rule-based threat detection, multi-agent AI investigations, incident correlation, and automated SOC report generation. [GitHub Repo](#)
- **GIU Nexus — AI Career Platform:** Built and deployed a MERN-based AI recruitment platform with JWT/RBAC, role-based dashboards, Hugging Face-powered skill extraction, job classification, personalized recommendations, and AI cover letter generation. [GitHub Repo](#)

TECHNICAL SKILLS AND LANGUAGES

- **Programming Languages:** Java, Python, C++, JavaScript, TypeScript
- **Web Development:** React.js, Next.js, Node.js, Express.js, FastAPI, RESTful APIs,
- **Databases & Vector Stores:** PostgreSQL, MongoDB, Redis, ChromaDB
- **Data, AI & MLOps:** Pandas, NumPy, Scikit-learn, CatBoost, XGBoost, LightGBM, Optuna, SHAP, Large Language Models, Retrieval-Augmented Generation, Groq API, Embeddings, Semantic Search, ML Pipelines
- **Tools & Deployment:** Git, GitHub, Docker, Postman, Linux, Jupyter Notebook, Swagger/OpenAPI
- **Languages:** Arabic (native), English (fluent), German (A2), French (basics)
